February 27, 2009

Dear Mr. Renczkowski:

Thank you for your interest in the Laboratory Supervisor 1 position in the Drug Laboratory Evidence Area. The members of the selection committee and I enjoyed discussing your experiences and qualifications with you. We appreciate your enthusiasm for forensic chemistry and valuable insight into the operation of the laboratory.

I am writing to inform you that you were not selected for this position. However, I hope that you will continue to seek out growth opportunities in the Drug Laboratory as your energy and ideas are welcomed.

Sincerely,

Julianne Nassif
